raveshaw/sydney are quite good vs both, infantry and vehicles! their advantage vs havoc/saccra is they do much more damage against vehicles! they kill every infantry with one hit, if they hit!their disadvantage is, they have problems to aim @ small things, like infantry!it takes longer between every shot, but they dont have to reload between every 4th shot!btw the havoc/saccuras are quite good vs buggys/hummvees and artillery/MRS (mobile rocket something)
