Hi guys!! I know some of you beat game at least once...I need your help. In that mission where you have to save Dr. Mobius' doughter you got to sabotage a nuclear missle. Well when I get on top to that little control table...I can't do anything to it. I tried to blow it up-did't work. I pushed the use button-nothing happens. In other words I can't sabotage the missle to complete the objective. Plz help. Thankz
