The trick to beating all those black hands is to get your greande or rocket launcher and let em have it. If you get damaged then go down the stairs and wait till the health & armor respawnkeep doing this till there all dead then take out the acolytes with the laser chain gunAs for petrova, keep moving and when she stops to shoot ya with the tiberium rifle get ure Ion cannon out and point it at her mutated head!!!!The ion cannon is a great boss killer!!
