I agree "Marauder1187", I want the sequel to Tiberian Sun Firestorm, maybe he might become a mutant, or a cyborg??? Kane may even form another faction/side, and verse GDI and NOD??? Kane also still has Cabal as his AI, so it's not all over for him yet. I want Tiberian Twilight, and I voted it!!!-----"Inferior tactics detected" – Cabal "By the way, missile launch detected!" – Cabal
