Over at General's HQ - <http://www.cncgenerals.cc> we have got a petition online with the aim of persuading Westwood to make a movie set within the Command & Conquer series. This is the dream for millions of C&C fans and with your help it could become a reality. Once we get enough signatures I will send the entries to Westwood Studios, and hope that it gets their attention to the fact that a C&C movie would be appreciated by people all over the world. Only with YOUR help can we achieve this aim, and change the face of Command & Conquer as we know it. So go on, head on over to <http://www.cncgenerals.cc> and sign the petition. Also, why not tell a friend or two?
