Argh, this ****ed me off so much! I was just playing a Multiplayer Practice to perfect my Flame Tank Rush. I kill off their Power Plant, Barracks, and AGT with the first rush. I also killed all their infantry. I come back the next time in a Stealth Tank armed with a Nuke Beacon too and I see a Mobius and Gunner sittin' around waiting for a piece of me! I kill em, thinkin that maybe I just missed them the first time. Then another Mobius and Gunner pop up. Stupid WW games, the AI doesn't even have rules. When you kill the barracks it should make the computer not be able to upgrade infantry too, like it says.
