that suit is 1 floor up to your left. once you enter the door to you left, kill whatever blocking your way or they might be a fight between nod soldiers and mutant if you manage to open the door unnoticed. then go ibside and go to you right. mobious won't die easily in that suit. i'm playing commando level and mobius took almost 20x of shoots i took but he manage to survive til the end with his life still in yellow.
