quote:Originally posted by just_ignore_me:I've seen people try that. The enemy just jumps into the vehicle, drives it back a little, and then enter the hand. Even if the Obelisk destroys the buggy, you have plenty of time to enter the Hand before the Obelisk can recharge and fire again. Um, no, you're meant to stay IN the vehicle and man the gun. Hence the word 'COVER' Only a right prat would leave a vehicle for the enemy lol
