I think nod should get the bike because the GDI mammoth tank is far more powerful than the nod stealth tank, the (stealth) doesn't even work. If it makes GDI feel better they can have a chrono harvester or something. Another thing that I hope would be changed is the team change thing, I guess it is just the demo that has the team-change thing and anyone who has the real game could you inform me do you get a bomber or orca fighter???
