Nods advantage is not speed and mobility, the best thing against GDI tanks are three gatling laser Black hand troops or Stealth troopers with C4's. Nods advantage is troops. I've never used tanks on the offensive. All troops types carry C4, but the stealth Back Hand can deliver it. Pick up the power up and more often than not it will reload your gun and the C4. I've defeated many GDI tank rushes with this, including three mamoths and a MLRS.
