Subject: Grenadiers, always dying?

When talking about the grenadier you must compare it to NODs 3rd unit, the flamethrower. They are both good at dealing a lot of damage to vehicles compared to assault rifle and shotgun. The flamethrower is better against infantry but has a very very short range. The grenadier is pretty useless against infantry that can easily dodge the slow grenades. But the grenades have a longer range and can be lobbed over obstacles.
