APC's rock. I normally host a non-dedicated server of 6ppl. I had gone away from my pc for a while and when i came back i was one GDI against 3 Nod. And all of them where in my base attacking my AGT. Well the time away i had accumulated 3000cred, bought apc, ion cannon, and a tough special character. I drove out of my base took some damage stormed their base, their tower took out my apc out when i reached it and i ran into hand of nod and placed the beacon and won the game. I was ROFLMAO. What else is there to say, so many great tactics for both sides but you gotta love those apc's. Rorschach
