I remeamber in one game when I was NOD and we pushed back into our base. We were starting to gain the upper hand, we were overwhelming the GDI Enginners with Snipers, Rocket Infantry and Stealth Tanks. A Single APC comes thru the entrance and It has a bunch of players names on it. Man, everyones attetion switches to that APC. I swear every single gunshot once we saw that thing was headed for it. It was wasted rather quickly and all the Enginners inside too.
