We know the differences between a flamthrower trooper and a Grenadethrower troopers, or the differences between a grunt and a black hand. But what about the fourth class of infantry? Even though their weapons look different and THE WAY their fire LOOKS different, they seem pretty much the same. Both Havoc and Sakruya use sniper rifles while Sydney and....ueh, what's his name again both use a long range, but slow ROF weapon (personal ion cannon and the rail gun). Dr.Mobius and.....don't know his name either uses similar weapons also. So they are pretty much the same, aren't they?
