So your base is being attacked by a MLRS, what do you do? Buy the best tank in the game; Nod
Light Tank and just speed up to to MLRS and keep driving into it while shooting, if your doing it
right, you should make the MLRS go sideways, if you can't just go right up to the front and push it
back, they can't hit things right infront of them. ^_^[February 12, 2002: Message edited by: Rolk]
