I have a tutorial on creating Temp presets for spawners and how to do it correctly so that you can mod them and get them working, i'll send it to some hosts tomorrow so you can use it. I am also writing other tutorials, i sent one that wasn't mine but i converted to html format to it's owner and he may decide to release it. If you want me to write a tutorial just ask me here and i'll do it as long as i know how to do what your asking me.
