Dante,I have named my map 'C&C_Temple_Dm' as ACk said he was naming his C&C_DM_Temple in your rules you say only maps conforming to the C&C_DM*** can be added to the archive.Is this strictly impossed, i could rename mine to C&C_Dm_Temple.mix as ACk hasn't released his yet, but i still want to keep the original name (just looks better)P.S Can i use the blank PT icons in your Tiberium Evolution Mod ppppllllllleeasssseeeeeeee (just the Nod and GDI ones) they are very good and just what i need.Cheers
