AircraftkillerTheatre: JungleDescription: C&C DM Cambodia is a small Vietnam-style deathmatch, with a Tank spawn to make for a fast-paced bloodbath. Crates provide you money, and Choppers are your PTs. Looks like someone is stealing again And where did you get this information, from [www.cncnz.com](http://www.cncnz.com)? Sonic made a mistake and believed that I created the map. How could I take credit for the map when I had nothing to do with it, you little lying thief?
