quote:Originally posted by PiMuRho:If you can destroy/delete zones, then you can just make a set of concentric zones for the Tiberium field, then just delete the outermost one each time. That would have the effect of making the field shrink.Exactly. So all we need to know is...is it possible to affect the tiberium zone object via a script. All this talk about the tiberium texture is just target that does not matter at this point.
