I can't make mountains. (I know how but I just don't have the skill yet) If you would be willing to make me one and give it back, I would give you 45\% credit and you get your name posted on the GDI walkway, just as mine. I don't care if it looks crappy. As long as it looks better than mine. Mine looks really bad.<http://www.anycities.com/user/dead4ayear2/new.zip>Here is the link. It includes a readme and the map. My map is almost done. It just need the walkway that connects the base and the finishing touches. (you know, "spiceing it up". And it just needs texture.
