Tell me what you think of these new skins I've made.... they are posted at n00bstories.com..... click the link to see em..... <http://www.n00bstories.com/phpBB/viewtopic.php?t=857>  
<http://www.n00bstories.com/phpBB/viewtopic.php?t=858> I used ack's suggestion of using a new raster layer with some transparency..... do you think they have improved the look of them???..... personally I see just a minor improvement..... which may or may not be noticed during gameplay....
