Thanks to Dante for informing me about it; the flags I released previously weren't working properly. Here's the ones that do:http://www.cnczone.net/maps/ren/ctf/flags21.zipAnd here's pics of what they look like in vehicles and on infantry(Thanks to Neo227 and CNCZone for the webspace   )Also, if you're not a modder, you can stick these in your /Data/ directory for use in any other CTF maps (As long as the map's flags and the replacements have the same filenames).Note: I did animate these at first, but Renegade wasn't reading the animation. It was frozen in mid-undulation.   [January 20, 2003, 15:50: Message edited by: Taximes]
