quote:Originally posted by Vladimer:out of curiosity, how much lag would it cause?? cause the thingy moving up and down??, and the kool thing about the flat ones is, multiple vechiles can be repaired at the same time, you dont have to wait until sumone is done repairs,Shouldn't be any lag. Its like a door. The unrealisic thing about the flat one was that you could repair more than one at once. Shouldn't be able to.
