humm,1 is ugly and one is alot more ugly than the other one?Ok, I give you points for the effort, I know you can do better,I don't really like them,and the soviet enginer should be more red, blue and red makes no sence at all.I'm use to do skins but I have a little problem with my photoshop, they turn black, I've did what everyone told me to do but nah, nothing worked at all. =/ [December 28, 2002, 19:24: Message edited by: Aprime1]
