Subject: URGENT MESSAGE regarding version 0.98 of my custom scripts.d
Posted by Anonymous on Mon, 23 Dec 2002 03:03:00 GMT

Because of a small bug in the dll (that I am working to fix), version 0.98 of the dll will not work unless a folder called temp exists in the c: drive.so for now, make a folder called temp and download 0.99 sometime soonish with the fix
