ACK, I'm beginning to agree with you. He hasn't finished the last one he posted yet. You know the one that we were flaming each other over. Andre' please finish the other map before I totally agree with ACK. A lot of people stuck up for you. Now it's time to show results. ACK and I don't see eye to eye on almost anything. Believe me it's getting close to a landmark case where we both will agree 100% on something.
