Over at www.cncex.com our coder is having problems with the layout, what we have so far is this http://home.earthlink.net/~mmailman/images/cncex_layout.jpg after that seems nothing fits, So CnC Explosion is in need of someone to code our layout for us. They need to know HTML, and be able to edit the graphics to fit right. Please contact me if you can do this. [December 07, 2002, 15:29: Message edited by: greenhaze2003]
