Vehicles: I'm not familiar with the UT2k3 engine, so I have no clue on this one. Since there is one vehicle in UT, would it be possible to add more of them? If the vehicles of C&C could be added.....

Well, I'm off to frag on my demo version, lol. I've got to get the full version..... Edit- to clarify with the vehicle things, there was a six-wheeled vehicle included for those who mod, and is accessed by one of the one-word codes (don't know what it so, sorry). I suppose that it would be possible to add the vehicles of Renegade if the coding for vehicles is already in place. [
