I'm finally finishing up this map, and I need beta testers to run around and find all the bugs they possibly can. It has a GDI Advanced Power Plant with two floors, tunnels, and a beach area with a lavafall, which looks almost real. <http://www.n00bstories.com/image.fetch.php?id=1437323380> The rest of the screenshots are here:

<http://www.cncrenegade.info/modules.php?name=Content&pa=showpage&pid=71> The Advanced Guard Tower doesn't exist anymore. You can see what replaced it in the lava screenshot. Just e-mail me, [aircraftkiller@cncrenegade.info](mailto:aircraftkiller@cncrenegade.info), with "I want to beta test DMPower" in the subject line. I'll sort through the applications and send out the beta map by tonight or tomorrow, if everything goes right. First come, first serve. If I send out the map tonight, no one who e-mails me after I send it will get the beta... I'm hoping to release DMPower within two days, at the most.
