well i gota agree with ack on this one, ive sorta fallen out of the love for renegade, the only real reaasn thats keeping me here is the actual mods, liek the ra1 mod and the reborn teams, most of the others r just either not worth even downloading, or just really suck, most of em r, "first map! hope u like" or jsut the same as most maps except a extra building here, extra unit there, no one plays them online, cant wait till the ra1 mod comes out those r the mods that ppl look forward to, how long is this mod taking already?? close to a year is it?? sumthing liek that, that is a true mod, sumthing i would actualy downlaod and play on the net, and so would other ppl, i dont belive any1 of u that say you think ack stuff is crap and you wouldnt d/l his stuff, dont lie now anyways, lets here the next flame.....
