yeah...i play a lot of video games...but i dont think that makes me a computer nerd.....i have over 200 software cdroms....got every console system i want on my pc via emulator technology....playstation,sega gennisis,nintendo,snnes,N64,colecovision,and for those oldies but goldies,atari 2600,2800,and 5200.I have over 130 games for the nes emulator alone,40 for the N64,and 30 or so for the playstation.(all my roms are backups of console games i have purchased over the years)I back up all my game software,i have a safe that i keep all my original software cds in and i only use the copys.i definately love gaming.....but i dont think that qualifys me as a computer nerd.here's a hint on how old i am.....i was 10 years old when the atari 2600 hit the comercial market.or are you too young to even know what an Atari 2600 is?Eric.
