quote:Originally posted by SomeRhino:Blazer told me that he made his videos by outputting the video to another computer's video capture card. I did something similar. I output to a VCR and recorded the gameplay to a VHS tape. After the testing was done, I captured the portions of the video that I wanted back into my computer. I then used MGI VideoWave III to compile the video. Thanks for the comments, and yes, of course you can talk to me, Andre.huh??? thats so confusing. can you plz tell me what you mean, i dont understand
