ok, in order to do this, you need to convert the rendered .avi to a .bik, there are some free tools on the web to do this...next, open up campaigns.ini, you will set the intro movie as per the sample ini setting that is at the top of the file, next add the movie to the desired file...put the campaigns.ini into your Renegade/Data dir, and then loadup into SP mode, wala ,you movie in renegade...**\*\*\*NOTE\*\*\***this will only work in SP mode, NOT in MP or MP Skirmish.hope that helps
