The new mod team called Polymods needs new members to add to its list, in addition we need someone to host our site and give us FTP access.Polymods started in these forums making the renegade racing project, here is the link to our latest thread. You can also visit our site at www.polymods.ohgo.com (this is on temporary servers)we are not devoted to jsut renegade, we mod all games we can, we also need article and tutorial writers as well as news updaters so we can cover basic community news. skinners, scripters, mappers, general modders, beginners, and modelers are all welcome [October 23, 2002, 18:07: Message edited by: Maimer1]
