i remember i tried to make the global help file for commando editor a while back, i think i got ONE submission... very sad, as i still sit and wait for it to brew up, i know alot about commando editor, but i just don't have the time to put all those tutorials together...would be nice though, if you need someone to compile everything into a nice little .chm, im your man also if you are looking into making an installer, let me know...RA Conversion Mod 0wns j00 [October 20, 2002, 09:30: Message edited by: Dante]
