quote:Originally posted by garth8422:ACK, do You mean that Tower that looks like a wooden water tank with a .55 cal gun on top is a Westwood Model. I thought that was your model.I have used the Ceiling gun right from the presets. Its pretty cool. Or customize a Gun\_Emplacement with the Base Defense script attached. Make sure U set the team as GDI or NOD and set the # of players to 0. or Disable Transitions.Yes, that's Westwood's model. I've got a better looking Guard Tower that's in Eglin AFB... Perhaps I'll find a use for it again somewhere.Remember, it's Nod, not NOD.
