nonono i mean like one of the cnc_c130drop.txt in the mobile turret mod if you have got it and tryed they atatched the turret to the artillerys cannon and its name in the model is muzzle0 or something like that whats the orcas engin in the model engin0 or whatfor example;
***** turret spawning buggy-295 Create_Real_Object, 4,
"cnc_Nod_mobile_artillery", 1, ""-300 Create_Real_Object, 5, "nod_turret_mp", 4,
"muzzlea0"-301 attach_to_bone, 5, 4, "muzzlea0"; *****ok look
-300 Create_Real_Object, 5, "nod_turret_mp", 4, "muzzlea0"so muzzlea0 is the artillerys canons bones name so the orcas engins bones name or the apaches propellrs bones name or the orcas guns name or the apaches guns name PLZ SOME1 I WANA TRY IT OUT [October 12, 2002, 08:35: Message edited by: mr1pants]
