I like it, it adds needed hummor to the game. The background screen on the main menu looks great, esspecialy the rotating Simpson's logo. The only things I see wrong is that some of the sounds are hard to hear/understand and there just needs to be more of them! Besides that, great job! I love it. I would fully support you if chose to make a TC Simpsons mod! Good work!Triforce [October 03, 2002, 13:23: Message edited by: Triforce]
