---

This is ai for multiplayer practice, not for online, i am not trying to mod the game, just add some challenge to the people who are playing without connections or who just enjoy skirmishes.(like me)later on i will work on a server side ai engine that generates bots into mp, but for now will be mpp and sp only.if you know of any other programs that do this could you post a link instead of being a criticizing my posts? Not being rude, but that would be a lot more helpful.
