quote:Originally posted by Zavian:whenever i goto multiplayer-lan it says no ips found... and i want to test my mod. And i have the latest patch(1030). What do i do?do i need that free dedicated server thing?NO IPs..... I used to have that problem in 1.15. Since the 1.30 patch it's been fine. I don't host LAN games cause Renegade's only on 1 of my comps.
