ok i see we all have played Tiberium Sun ^\_^...ok...u know the helicopter that Sakura  
flies???...and in the very second level that first NOD helicopter u see chasing a Orca??...THATS A  
HARPY...the harpy has NO wings and 2 fan things(i forgot what they are calls lol) one on top..and  
one in the rear...it only has a machine gun in the front..and in Renegade they added missile pods  
that rotated out...the Harpy is very slender and skinny...and that pic has stuff jutting out on the  
side(missile pods and the 2 fans)..therefore it could NOT be a harpy..and its a orca...theres your  
lesson for today ^\_^
