RenxThey did, it all started when AoD was deleting his posts, then came deleting the bug reports, and then the bans. Reborn put down RenAlert non-stop until the second their public beta came out.

That was a long time ago, it was all pretty calm until a few weeks ago when ack find's something he doesn't like, and typically bashes it continually, however the current petit arguments are between Ak and Renardin not Between Reborn and RenAlert, though Ak seems to want it that way :rolleyes:
