let things go...forget about it....sit back and think about what you are agruing about. i dropped my gurdge after 2 weeks, i cant believe you would hold one for 2 years of this. you guys are arguing between 2 mods for a "near-death" game. just make the best of the rest of it. i can careless if you guys continue to bach this mod, not like this is the only mod i am a part of. the world does not revolve around the mod of Renegade.

please dont reply with, "if you dont care then why are you replying". i dont care about these petty arguements, i care about the reputation that the Renegade community is recieving over them.
