From Renalert public forums:

"Steppo is quite honestly the king of online comedy. He is the man. That rant was hilarious, and still is." AircraftKiller

Yes, Ack finds it hilarious that I hate Reborn so much. So where's the part where I'm supposed to be this brain-dead fanboy that you fantasize about?

Quote:

" 1.) If Aircraftkiller is responsible for Armageddon, then I claim the apocalypse. Cuz NOBODY causes death and destruction like me."

In many cases, Acks arguments through either attacking Reborn, or defending RenAlert, lack any sort of evidence or factual foundation. I'd say that 99-100% of my arguments are felt throughout the community and/or are backed up by fact. (Thus the quotes).

Quote:

"Note: That was my Rant that Aircraftkiller quoted. That's right. The entire post. It says so up top... and in the damn title. "

I ranted. He quoted it. What's your point?

Quote:

"Excellent job, Aircraftkiller."

I think that was from the post where he showed off one of his maps (Don't remember which.) And I thought it was well done. What's your point? Complementing on a well-done map means instant fanboyism?

Quote:

"And then Aircraftkiller, in all his modding might and glory, wrought apocalypse upon this thread, and then shoved it in the Garbage Can.

Satire. LOOK IT UP. It was a crappy thread that went nowhere. It was bound to be locked. So I smeared it in satire. What's the issue?

Quote:

"After my original Anti-Reborn post flurry, made about three to four months ago (Which has been

said, by many, to spark the original RenAlert/Reborn war), the time has come to observe the progressions of each mod."

Steppol'm not really banking much on the previous releases of RenAlert... or ANY release for that matter. Simply having to point out that RenAlert installs properly and Reborn does not is bad enough.

And thank you for proving my point.

Quote:

I don't play RenAlert, really. So i can't make TOO much of a comparison. I play when Ack asks me to... but that's about it.

All my hopes resided on Reborn. But as it stands, they failed miserably.

No affiliation, eh?

That's right. I told Ack that I was intending on creating a case-by-case review of both Reborn and RenAlert. It was then that Ack offered to play a few rounds of the latest release of RenAlert. I accepted. You make it sound like he's my best friend or something. Or that I signed some sort of Contractual NDA designed so that all I'd do is bash Reborn.

Care to retort? I couldn't help but notice that Ack is the only one laughing at your self indulgence in that log, which you made sure to leave in.

Go find someone with the "Full" log. You'll find that the only other related quotes in there was some useless rambling by some "Wan"-something guy, saying things like "It's not your logo, Steppo. So you have no argument." And a bunch of /emotes and Admin messages.

You are just another on a long list of boot licking I-ACK-eys.

You are just another on a long list of people who don't know what the hell they're talking about. Simply by pointing out that half the quotes you have posted AGAINST me, have actually PROVEN MY POINT, is pretty evident on its own that you really need to watch your mouth.

As for the examples I posted, they clearly show a pattern of relationship between the two, thus an agenda.

Whoa. He IMs me, and therefore I am part of the s00per-seekrit anti-reborn militia! OMGOMGOMG! Sure pal, go stick your conspiracy theories somewhere else.
