msgtpainGood Job Ack... you went almost a full 10 days since the last "your being an immature prick" lecture..

And Crimson STILL can't see why we find it hard to take BHS seriously... Childish antics, which never seem to end.... As long as YOU'RE on their team, you make them all look bad too.. PR? That's a term that YOU should be learning more about..

But we've been through this before.. and the circle begins again.

I'm only bashing Mahkra because he said a few choice words about me. If someone attacks you, I notice you return fire. So are you a hypocrite for that, or are you just commenting to try and see what I'll say to you?

This thread isn't a "reborn bash fest" either, it's simply to show that they don't give a damn about what anyone thinks.
