Looks like someone has difficulty understanding english.

Quote:Signature Image Size - Please keep them small as signature images should be. In other words it shouldnt be bigger than a few lines of text, or so wide that it stretches the forum page beyond its normal bounds. Just keep in mind that by definition a "signature" is a small signoff message. Anything larger than 3-4 lines of text stops becoming a sig and turns into "that big picture at the end of the post". Please also make sure that your signature image, if animated, is not over approximately 250K. This is to ensure that the modem users (yes, everyone doesn't have broadband) don't have any problems

Even when it was removed, and said "This signature was removed because it was too big." you STILL couldn't take the hint and read the rules? Jesus.
