My personal Favorites:

Pharotek
Nod crush

Both from the Firestorm expansion pack.

I get the urge to play these about once every other month. I kind of rotate them, and right now I am back on Renegade.

Actually I bought the doom 3 pack and am having fun with that right now. I am too used to the Ren controls, and it's a very different set up to get used to. It included a demo disk for Doom 3 that looks very nice.
