Aircraftkiller! I'm not going to reiterate the history of Reborn just so you understand where I'm coming from. Maybe Steppo, or someone else, can post the full history.

Sure! Lemme just not give a shit in as few lines as possible.

(Sometime when God had forsaken the world) - AoD is born. Doctors question parents' sanity for conceiving in the first place.

(Sometime after that) - AoD gets the fantastic idea of creating a mod that sucks the gay out of Richard Simmons' ass.

(2002 - 2003) - Reborn is started. God cries.

(Summer 2003) - AoD hires approximately 20 Beta Testers, mostly from the United States. Steppo joins US Beta Test team.

(Still Summer 2003) - Steppo and team write a multi-page bug report, posted in the Reborn "Beta Team Only" forums, detailing many bugs that potentially ruin the overall "Fun" factor of Reborn.

(Fall 2003) - AoD and Steppo go head-to-head as AoD becomes infuriated with the "Excessive Negative Response" that the US team displayed.

(Yep, Still Fall) - Steppo quits.

(Fall again) - AoD disbands the US Beta Team for "Excessive Negative Comments" against Reborn.

(December 24th) - Reborn is released, promised to be a bug-free and "Non-beta release", yet proves to have more bugs than a bait store. God contemplates suicide. Steppo contemplates ranting.

(December 25th) - Steppo rants. (Copied from RenAlert due to lack of energy to find it anywhere else.)
