majikentQuote:Signature Image Size - Please keep them small as signature images should be. In other words it shouldnt be bigger than a few lines of text, or so wide that it stretches the forum page beyond its normal bounds. Just keep in mind that by definition a "signature" is a small signoff message. Anything larger than 3-4 lines of text stops becoming a sig and turns into "that big picture at the end of the post". Please also make sure that your signature image, if animated, is not over approximately 250K. This is to ensure that the modem users (yes, everyone doesn't have broadband) don't have any problems.

This also says it's not allowed in your signature either.
Very well, removed.
