I'm 15 1/2, don't have a job just like you, and run my own site http://www.egmods.com I think I need a paid server way more than a clan does, I have about 7 gb of files on my site, and have used I have used 5gb this month, 6 last month, and 11 the month before that, I am doing this all for free. And with no ads, with the exception of the ones I put on my site so I can try and make a bit of money. So I don't really see why a clan needs to have a paid server at all. (Do you run servers on Renegade, if so NVM what I said I understand now)
